The Dash
by Linda Ellis

I read of a man who stood to speak
at the funeral of a friend,
he referred to the dates on the tombstone,
from the beginning to the end.

He noted that first came the date of birth
and spoke the following date with tears,
but he said what mattered most of all
was the dash between those years.

For that dash represents all the time
that they spent alive on earth,
and now only those who loved them
know what that little line is worth.

For it matters not how much we own,
the cars, the house, the cash,
what matters is how we live and love
and how we spend our dash.

So think about this long and hard,
are there things you'd like to change?
For you never know how much time is left
that can still be rearranged.

So when your eulogy is being read
with your life's actions to rehash,
would you be proud of the things they say
about how you spent your dash?
